Corvanta Technologies - Laptop Policy

Document ID: IT-LP-007

Version: 3.1

Effective date: 2026-01-15

Owner: IT Department

Applies to: All employees in India and Sri Lanka

1. Purpose and Scope

This policy explains which laptops Corvanta provides, how new or upgraded laptops are approved, and what happens when a laptop is damaged, lost or stolen. It applies to all employees and contractors in India and Sri Lanka who are issued a company laptop.

Company laptops remain the property of Corvanta Technologies. They must be returned on the last working day of employment.

2. Standard Laptop Models

IT keeps three standard configurations. Employees receive the standard model for their role unless an exception is approved under section 3.

Profile	Typical roles	Standard model	Approx. cost
Standard	Sales, HR, Finance, Operations	Lenovo ThinkPad E14, 16 GB RAM, 512 GB SSD	INR 75,000 / LKR 270,000
Developer	Software engineering, QA, DevOps	Lenovo ThinkPad T14, 32 GB RAM, 1 TB SSD	INR 1,35,000 / LKR 485,000
Design	UX and product design	Apple MacBook Pro 14-inch, 18 GB RAM, 512 GB SSD	INR 1,99,000 / LKR 715,000

2.1 Accessories

Each employee may receive one docking station, one external monitor, a headset, a keyboard and a mouse. Accessories under INR 10,000 / LKR 36,000 need line manager approval only and are requested through a helpdesk ticket with category **hardware**.

3. Eligibility and Refresh

3.1 New joiners

New joiners receive the standard model for their role on their first day. The hiring manager must request it at least 10 working days before the joining date.

3.2 Refresh cycle

• Laptops are replaced every **4 years** from the date of issue.

• IT contacts the employee 30 days before the refresh date.

• A laptop may be replaced early only if IT confirms it cannot be repaired economically, or if the employee moves to a role with a different standard profile.

3.3 Upgrades and non-standard laptops

An employee who needs a more powerful or non-standard laptop must raise a request with a business justification. The request is approved according to the approval limits in section 3.4 on the next page, based on the total cost of the laptop including taxes.

3.5 How to request a new or upgraded laptop

1. Raise a helpdesk ticket with category **hardware** and the summary "Laptop request" followed by the model you need.

2. Attach the business justification and the quotation provided by IT.

3. IT routes the request to the approvers listed in the approval limits table.

4. Once all approvals are recorded, IT orders the laptop. Delivery takes 10 to 15 working days.

5. Return your old laptop to the IT desk within 5 working days of receiving the new one.

3.6 Personal use

Reasonable personal use is allowed. Employees must not install unlicensed software, disable security tools, or allow family members to use the laptop.

3.4 Approval Limits by Laptop Cost

Approvals are cumulative: each band needs every approver listed for that band. Costs include all taxes. India amounts are in Indian Rupees (INR) and Sri Lanka amounts in Sri Lankan Rupees (LKR).

Band	Laptop cost (India)	Laptop cost (Sri Lanka)	Approvers required
A	Up to INR 90,000	Up to LKR 325,000	Line manager
B	INR 90,001 to INR 1,50,000	LKR 325,001 to LKR 540,000	Line manager and Department Head
C	INR 1,50,001 to INR 2,50,000	LKR 540,001 to LKR 900,000	Line manager, Department Head and IT Director
D	Above INR 2,50,000	Above LKR 900,000	Line manager, Department Head, IT Director and Chief Financial Officer

Examples

• A Developer profile laptop at INR 1,35,000 for an engineer in Bengaluru is Band B: line manager and Department Head.

• A Design profile MacBook Pro at LKR 715,000 for a designer in Colombo is Band C: line manager, Department Head and IT Director.

• A Standard profile laptop at INR 75,000 is Band A: line manager only.

Notes

• A replacement under the normal 4-year refresh at the same standard model does not need approval.

• A replacement after damage or loss follows section 4. Approval limits apply only if the replacement is a higher-cost model than the one being replaced.

• Where the line manager is also the Department Head, one approval covers both roles.

4. Damage, Loss and Theft

4.1 Reporting damage

Report any physical damage, such as a cracked screen, broken hinge or liquid spill, within **24 hours**.

1. Raise a helpdesk ticket with category **hardware** describing the damage and how it happened.

2. Take the laptop to the IT desk in your office (Bengaluru: 4th Floor, Tower B; Colombo: Level 2, Corvanta House).

3. Collect a loaner laptop while yours is assessed.

4. IT confirms within 2 business days whether the laptop will be repaired or replaced.

4.2 Who pays for accidental damage

• **First incident** in any 24-month period: Corvanta pays the full repair or replacement cost.

• **Second or later incident** in the same 24-month period: the employee pays 25% of the repair cost, capped at INR 15,000 (India) or LKR 50,000 (Sri Lanka). The amount is deducted from salary over up to 3 months.

• Damage caused by deliberate misuse or by using the laptop against this policy is charged at the full repair cost.

4.3 Loss or theft

1. Report the loss or theft to IT immediately by calling extension 4357, so the laptop can be locked and wiped remotely.

2. File a police report within 48 hours and upload a copy to the helpdesk ticket.

3. Without a police report, the employee may be charged the depreciated value of the laptop.

4.4 Returning a laptop

Employees leaving the company return the laptop and accessories to the IT desk on their last working day. Final settlement is held until IT confirms the return.

5. Contacts

IT Service Desk: helpdesk@corvanta.example, extension 4357. IT Director: itdirector@corvanta.example.
